

Dear Members of the FCC:

This letter is to urge you to hold open public hearings in California and other states.

It is time you stopped listening exclusively to corporate media and started listening to American consumers and voters.

Please be sure you are getting input from all the interested parties, not just big business, before you make sweeping changes that affect all U.S. citizens.

Sincerely,

Jennifer Olney
104 Lehman Lane
Mill Valley, CA 94941
